

"I would recommend mentoring to other businesses. Even now we discuss different ideas and my mentor still puts me in touch with his contacts. Mentoring can help business leaders that have more to offer but don't know how to do it. For business owners to maximise their potential it's essential they have confidence in themselves and a mentor can help them with that."

Other Business Mentoring quotes :

What were the impacts of mentoring?

"It was almost like a revelation, it might sound strange but before mentoring I had no-one to bounce ideas off, it made me much more confident. I'd say it helped me improve internal relationships with key customers – it helped cement relationships."

How did mentoring benefit your business?

"My Business Mento reminded us about the fundamentals rather than giving specific advice. We concentrated on things like making financial forecasts more robust and keeping them simple. We have already seen increased confidence due to our more accurate financial forecasts."

How did mentoring affect your business' turnover?

"Before going into mentoring my target was to increase annual sales revenue by 5%, but after mentoring had finished my annual revenue had actually increased by 18%. The BM was very focused on sales and marketing and that's what has helped me improve my sales figures."
